

October 11, 2006

Subject: Product End of Life Notification
Product: Brooktrout TR114 DID/Combo and TruFax Analog Series

Dear Cantata Customer,

This letter serves as a reminder to the notice sent to you in November 2005. As you know, Cantata has replaced our non-RoHS DID, Combo, and TruFax product lines with RoHS (Reduction of Hazardous Substances) compliant product. You are being notified of this as your company has previously purchased one of the models in the below table.

At this time, Cantata would like to offer a Last Time Buy on any of the non-RoHS Brooktrout products listed in the below table. While supplies last, orders may be placed in accordance with this offer until December 31, 2006. Shipments against these orders must also be made by December 31, 2006.

As of this notification, these non-RoHS products will not receive new engineering development or manufacturing builds. New orders will be accepted and filled only while current supplies last.

Cantata will provide technical support for the non-RoHS products listed below through December 31, 2007 and hardware warranty support through the warranty period from the date of purchase. No scheduled maintenance releases will occur for these products. Fixes to problems will be supplied by patch fix.

If you would like to participate in this Last Time Buy offer, or should you have any questions regarding the information contained in this letter, please contact your Cantata representative.

If you have not already done so, please take advantage of the new RoHS compliant hardware. The part numbers for these products are listed below. Please contact your Cantata representative for additional ordering information.

It has been a pleasure having you as a Cantata customer. For further information on the Brooktrout Fax Series please visit our website at www.cantata.com.

Sincerely,

Robert Moran
Senior Product Manager, Media Processing Components
Cantata Technology
